## Problem solving workshop

If you have any business/IT problem you can use this workshop to find common understanding and solutions to “unsolvable” problems. We help you to uncover root causes, identify innovative solutions and achievable actions, give the momentum, all without the need of extra budget for the improvements.

**Duration:** 2 days

## IT consultancy

- Agile, Lean in IT, ITIL and IT Service Management, distributed teams.
- Human change management and implementation of new way of working.
- Agile and maintenance models and contracts.

**Duration:** based on needs and demand

## Lean start-up workshop/consultancy

Concept of Lean start-up helps to verify and adjust the strategy of new product/service or the start-up. We support you with identification of your way to verify the viability of your product/service and the way to scale it up.

**Duration:** 1 day

## Innovation / Ideation workshop

If you want to design new service or product you can use this workshop to generate ideas, sort them out, find the actions and future state. Outcome of this workshop is designed prototype.

**Duration:** 2 days

## Lean IT / Agile / ITIL game

Learning key principles, tools and techniques by real life experience is the best way to learn, remember and enjoy the topic at the same time.

**Duration:** 1 day per game

## Storytelling workshop

We remember stories. We love them and connect with them emotionally. Create the story of your service, product, company vision, community, group or your own in a form of story, video or comics. Story helps your customers to connect with your product, service, brand or community emotionally. And this is what sells!

**Duration:** 1 and ½ day

## Original copywriting

- Agile, Lean, ITIL and services, SWD, teams
- Problem solving, ideation, innovation, soft skills

## High Performing Teams / Team coaching

Improve the efficiency and satisfaction of your teams by finding people’s strengths, flow moments and level of their autonomy. Allow autonomy, mastery and share the purpose. Workshop is based on psychology research of Ryan, Deci and Csikszentmihalyi.

**Duration:** 1 day
